RECENT EVENTS.

(From the "China Overland Trade Report.")

ONCE more the inevitable reaction has intervened, and this time the news from the North is, entirely gratifying. The rebels who took possession of Takn have apparently vanished off the face of the earth, and the correspondents who forwarded those glowing accounts of their advance, which were published in the last *Overland Trade Report*, contented themselves when the next steamer came down, with informing the foreign public of China that the Chinese authorities had informed the Consuls that the rebels had left the Tientsin district, and had gone in the direction of Shantung. Since then there had been no more rebel news of any sort. Dead bodies had been seen floating down the river with the ebb tide, but this does not appear to be a very extraordinary occurrence at Tientsin. After chronicling the flow of dead bodies past the town, the historian of this Will-o'-the-Wisp rebellion, passes on to the subject of spring races,—in which, probably, readers at home would only take a moderate interest,—and that is the end of the rebels for the moment.

The North of China, as must have been perceived long since by anyone who has watched the so called rebel news, is the prey of brigandage on a scale unknown in European countries. Where the robber bands of Italy or Spain at the worst may have numbered tens, the robber hordes of China number tens of thousands. It is a matter of course, that the vast majority of these must be an unarmed rabble, mere plunder and murder hordes, and people who profess to know insist upon it that they are altogether without organisation or leaders, that in fact they are hords roaming about like herds of buffaloes and terrible from their numbers only. That they are terrible only to the village and the country populations of China is beyond dispute, though it is disputed whether they or the Imperialist armies out against them are the more to be dreaded. Chinese commanders mean to take for their first article of the faith, the dictum that war should support itself, and their soldiers are said to ravage the country just as indiscriminately as the rebels against whom they take the field. How can it be expected that trade should be otherwise than "depressed," under such a state of things? The city marvels at this in the country, plagued by two such fearful scourges as its protectors and their enemies, should have the power of supporting a foreign commerce at all. If it can, even under existing circumstances, pay a certain quantum of European goods, as it does, the trade would indeed be on a colossal scale if the empire were thoroughly pacified, and governed by just rulers, who would not only secure the persons and property of their subjects from attack by lawless armed foes, but refrain themselves from attacks not less destructive, because they are more insidious. No one interested in public events, who is led, by residence in this part of the world, to wonder what changes might be brought about in China, by external influence, or to speculate on its probable future, can avoid seeing that settled government is the one thing needed by the country, and that its own Government never can be settled. Whether it might be possible to organise a system in which European aid could be given nominally to the Emperor, though under restrictions, which would guarantee its legitimate use, is a question which might well occupy the attention of British statesmen. At all events, there can be no doubt that any such check upon the fatal Indian policy, effected by Europeans, would achieve wonders in those provinces that are now paralysed by brigandage. Not as to the enormous impulse which would be given to commerce if those provinces were thoroughly pacified.

It will be seen by the present advices from Japan, that the late Tycoon, has accepted the decisions or sentence of the Mikado, and has retired from Yeddo to his banishment at Mito. But it is not thought by the *Japan Times*, (from which publication we have added to people learned in Japanese politics, find a new name for him every week or so, and scrupulously condemn the use of all others) will by his submission remove all the impediments in the way of a complete pacification of the country. The Daimio who had taken his part so conspicuously, "ATEKI" by name, is said to be in arms, supported by another Daimio, S. NDAI, and to be unwilling to submit to the southern confederation. This would make it appear as if the opposition of the late Tycoon were more the work of the Southern confederation than of the Mikado, and as if the power of the Mikado, as distinguished from that of the particular subject. Prince who have fought his battles for him on this occasion, were not as great as has been represented. The Jara Tycoon, as events led one to suppose, laid down his authority, and humbly submitted himself to the decrees of the Mikado, as soon as he is became convinced that the people in arms against him were acting with the sanction of the supreme Sovereign. But if he has become convinced, of this, how can his present ADDRESS be any longer in doubt? It is very true that in the light of recent events much which was before difficult to comprehend in connexion with Japanese politics is becoming clear, but if the accepted theory which explains BUYTENDAM'S, or YOSHIDA'S conduct during the last four months be a sound one, ATEKI and his friend must now be overcome rebels! It would appear at all events that the feudal princes of Japan, even if they do unite in professions of loyalty to one sovereign, are very far from being willing to submit in any way to one another. Of course the partial pacification of the country which must ensue from YOSHIDA'S disappearance from the scene, will tend towards the revival of foreign commerce, but ATEKI'S resistance is now referred to as a disturbing cause.

The Legislative Council of Hongkong has been again in session since the last mail went away, and a rather more animated discussion than is usually seen it that dignified, not to say taciturn assembly took place in reference to the measure which the governor has in view for the disarmament of the fishing boats. This was explained in the last *Trade Report*. It is brought forward in consequence of a similar measure which, partly in consequence of representation from this colony, has been adopted by the Viceroy at Canton. The Viceroy has issued a proclamation prohibiting fishing vessels from carrying arms after a given date, and prohibiting all vessels of any kind from carrying stink-pots. The Hongkong Ordinance empowers the governor to establish regulations similar to those of the Chinese Government, and to keep abreast of any further regulations to the same effect, which may be made by the Chinese Government. Mr. KESWICK at first opposed the transfer of legislative functions to the Executive, but it was denied that the functions to be transferred were legislative. That very necessity for extreme caution in adopting regulations in harmony with the Chinese Government, whose regulations are so liable to prove deceptive made it necessary, the governor pointed out, that the matter should be dealt with by himself and the Executive Council rather than by the fixed enactments of the Legislature. Mr. KESWICK did not press the objection, and only insisted on the necessity of taking care not to frighten the Chinese trading junks, on which the prosperity and commerce of the colony to a great extent depended. In reference to an ordinance which provided for the establishment of a fire brigade, a sharp discussion arose, though one rather of retrospective than of present interest, as it referred especially to the negotiations between the Insurances offices, which retarded the establishment of a brigade last year. As for the present ordinance, it is generally admitted that a brigade ought to be formed, but there is a very strong feeling of dissatisfaction with the arrangement made by the ordinance for meeting the inevitable expense. This is to be done by an additional rate of 5 per cent. on house property. These rates are inordinately heavy at present, over 10 per cent. on the full amount of the rental, and everyone acquainted with the colony will know that house rent is extravagantly and enormously high here. The reply made by the Governor was that his instructions from home left him no alternative. No additional expense could be proposed, unless there was a proposal side by side with it for fresh taxation by which it could be met. Even then it is difficult to understand why the Insurances offices should not be made to contribute something towards the expense of the brigade. They receive high premia for the risks which they take in this colony, and could well afford a contribution to the expense of the brigade.

Though the Governor's reply about his instructions from home is one to which no answer can be made by the Legislative Council, its inner meaning can scarcely be overlooked by anyone interested in the fortunes of this colony. The place is urgently in need of a fire brigade, the cost of which could be paid out of the general revenue easily enough. If it were not for the enormous pecuniary exactions levied on the colony by the Home Government; but no—there must be no brigade unless house property, which already pays nearly 10 per cent. is further burdened. Heavy duties of many descriptions sanctioned without a dollar's worth of new taxation, that might be so much drawn from a hind otherwise available to pay arrears of Military Contribution! Comment on such a contingency would be superfluous.

Chamber of Commerce.

The ordinary half-yearly meeting of the Chamber of Commerce took place yesterday afternoon, at three o'clock. There were present:—Hon. P. Ryrie, Chairman, G. F. Heard, G. J. Holland, T. Tyrie, G. Bosman, — Taylor, E. Hitchcock, N. Kresser, A. Zimmern, and G. Fraser, Esqrs., and Mr. J. W. Wood, Secretary.

Mr. J. W. WOOD, the Secretary, read the report of the committee for the past half-year, and as he proceeded various suggestions were put forward by the members, which in the end were incorporated with the original reading of some of the resolutions.

The first three resolutions were passed without comment, but with regard to the one referring to the Stamp Act,

Mr. BOSMAN observed that in his opinion the remark at the end of the resolution referring to the duty on bank notes might advantageously be left out. There was no use in bringing the matter forward at the meeting (Mr. KRESSER) who was at all qualified to give an opinion on the subject. It would be better, he thought, if a general remark on the whole subject were inserted in the resolution.

Mr. KRESSER however was of a different opinion, he considered that the present duty on Bank notes was much too high.

After some discussion between the two before mentioned members, it was suggested by the Chairman that Mr. Bosman should find a seconder for his amendment and then put the question formally to the meeting.

Mr. BOSMAN then looked round the table, but finding no response to his want of a seconder, the amendment was put to the vote and negatived.

The remaining resolutions were passed without comment, and having been read by the secretary in its new form; it was passed with but few remarks from the members.

The remaining portion of the report was passed without comment.

The CHAIRMAN then moved the adoption of the report in its amended state, which was unanimously carried.

Mr. TAYLOR suggested that a copy of the resolutions should be sent to His Excellency the Governor, which was agreed upon.

The meeting then proceeded to elect a committee for the ensuing year.

The CHAIRMAN intimated that, with the exception of Mr. Fellowes, all the members of the late committee were open for re-election.

The votes of the members present were then taken, when it was found that Messrs. Heard, Kresser, Duncanson, Ryrie, Rowett, Hitchcock, Zimmern, Holland, and Pyke were duly elected as members of the new committee.

Mr. PYKE then proposed "that the Monthly Steck lists which was formerly the practice to prepare, be resumed." He observed that in the first instance it would be requisite for the all the members to agree to the proposition.

The CHAIRMAN however observed that it would be little use passing a resolution before the consent of the various members of the Chamber had been obtained.

Mr. PYKE then proposed that the Secretary be instructed to inform the members of the proposition he had made.

Mr. HEARD then seconded this resolution, and it was carried.

Mr. BOSMAN then said that, before the meeting separated, he thought a vote of thanks to the Chairman should be passed.

The motion, which was received with approbation, was carried unanimously. The meeting then closed.

This was the seventh anniversary of the formation of the Chamber of Commerce, which was originally opened on the 28th of May, 1861.

The following is the Report as amended by the Meeting before being adopted.

Report of the Committee of the Hongkong General Chamber of Commerce, presented to the Members thereof at the Half Yearly General Meeting held on the 29th day of May, 1868.

The Committee have the pleasure to submit their Report on the principal subjects which have come under consideration during the last Half-Year.

CHANGES IN THE USE OF THE CHAMBER.

Your Committee, who, through the Secretary, have been in correspondence with the Secretary of the Bengal Chamber of Commerce, Calcutta, and also direct with Messrs. Reuter's Agent at that Port; but so far, the result has not been satisfactory. Means, better, being anxious to try the result of a system of supplying Telegrams to private subscribers, consider that furnishing them to a *public* body, like your Chamber, would be prejudicial to said system they are endeavouring to introduce, and hence their determination not to supply the Chamber for the present.

CHANGE OF THE DATES AND HOUR OF DEPARTURE OF MAILS.

This matter has also occupied the attention of your Committee. The Chairman waited on the Post Master General, and afterwards on the Colonial Secretary, and found that the local Government had no voice in the matter—the orders, in regard to dates and hours of despatch of mails, emanated direct from the Post Master General in England.

The change, in having the mails dispatched on fixed days each fortnight, must meet the views of all, but the change in the hour of departure at 7 A.M., cannot but be felt to be highly inconvenient to the Mercantile Community, and to the Public at large. Due notice having promised to support the views of your Committee on this point with the Home authorities, a letter on the subject was addressed to the Acting Colonial Secretary—copy of same will be found in the appendix.

THE CHAMBER'S CIRCULAR.

The improvement of this publication has received the attention of your Committee, various Members supplying such mail lists of sales, remarks, and statistics to assist the Secretary in its compilation, and they confidently hope that the result has been the production of a Circular, conveying information regarding markets, and statistics, which is of real value to those at a distance engaged in the China trade. The increased expense of printing the Circular in its present enlarged form, and how to meet this expense, has been discussed by your Committee, but they have considered it advisable to fix the subscription price of 12 cents per copy, trusting that as the increased value of the Circular becomes felt, the sale of copies to Subscribers will be so augmented, that in the course of time the extra expense will be covered.

STAMP TAX.

The modification of the existing Schedule of Stamps has occupied the attention of the Chamber. The local Government, aware no doubt, that much dissatisfaction was expressed by the Community with regard to the Schedule just abolished, have made a sensible move in the right direction. On stepping out of the carriage General Knollys introduced the lawyer, who, in the robes of civic office, stood at the head of the procession which waited to receive the distinguished visitors. The mayor thereupon presented a scroll containing the humble address of the corporation of Chester, which the prince graciously received, but reserved for perusal at a more convenient season. By this arrangement no delay was occasioned upon the platform, and with the great crowd vociferously cheering, and the band playing the National Anthem, the prince and princess passed through the guard of honour (composed of a company of the local volunteers), and walked along the temporary bridge which led to the Queen's Hotel, where dinner was provided. Among the company assembled to greet the prince and princess were the Bishop of Chester, the Dean, and the Reigning Queen, and these dignitaries, together with the mayor and the city sheriff, were honoured with an invitation to dine with the royal party.

Meanwhile a crowd, outnumbering that which thronged the station, had gathered in the large open space in front of the Queen's Hotel, in the hope of catching a glimpse of the princes and princess, and this circumstance being reported to their royal highnesses, they good-naturedly resolved that they should not be disappointed. Accordingly after dinner they walked round the large concourse which fronts the square, looking out upon the enthusiastic crowd from the open windows, the prince bowing and smiling, and evidently being really gratified by the popular demonstration. Her royal highness, though apparently in delicate health, seemed to be in high spirits, and several times expressed the pleasure which the unexpected reception had afforded her. From the coffee-room the royal party proceeded to the train, where they were again and again cheered by the more fortunate portion of the populace that had secured an entrance to the station, and at half-past 8 they proceeded on their journey to Dublin, *viâ* Holyhead.

At Holyhead, her Majesty's yacht the *Prince Arthur* and the *Enchantress* had been taken from the Royal Victoria Harbour of Refuge alongside the Admiralty jetty in the old harbour, in readiness for the reception of the royal party. The *Victoria and Albert* was next the jetty and the *Enchantress* alongside it. Admiral Schomberg, Queen's harbour-master, had spared no pains to make the arrangements perfectly complete, and the jetty, from the entrance to the extreme end, was intersected by iron barriers, to prevent any crushing from the large number of spectators anticipated. A body of Anglesey volunteers, under Major Stanley, of county and town police, and the Coastguard, were in readiness to co-operate as a bodyguard on the jetty. On the arrival of the royal train voddets were fired from all the men-of-war in the harbour, consisting of the flag-ship *Minotaur*, *Achilles*, *Worcester*, *Defence*, and *Hastings*. The actual number of men on board the various ships was 2,820, including officers and men.

The royal train reached Holyhead at 10.30, and Holyhead pier at 10.35. The Prince and Princess were received with the warmest tokens of loyalty, greater enthusiasm being shown on account of the Princess of Wales. Their Royal Highnesses were received by Admiral Scomberg, harbour-master.

The greatest enthusiasm was shown as the all the line, especially at Holywell, Rhyl, Conway, and Bangor. Several buildings near the line of the way from Chester were illuminated. The Marquis of Anglesey's monument, near Menaibridge, was illuminated in a very brilliant manner. The train attained speed to allow the travellers to witness it. The Prince and Princess were delighted with their trip, and bowed repeatedly on the pier.

The squadron sailed at 7 p.m. for Kingstown to receive the royal visitors. The sea was beautifully calm. The princess carried a an exception the purchase have been by native splendid bouquet, presented to her at Crewe, by Mr. Tootal, one of the directors of the railway.

The royal yacht arrived in Kingstown Harbour at half-past 9 o'clock on the morning of April 15, and immediately received the salutes of the fleet. At 11 o'clock a deputation of the harbour commissioners went on board and presented an address. A dove was also presented as a token of loyalty and peace. All the ships in the harbour were decorated, and the ascent of the head English mail, the market was perhaps strengthened somewhat by a rumored private telegram, said to have been received at Singapore, and quoting $\frac{1}{2}$ fm. Grey Shirtings on the 30th ultimo 14s. There were few, however, who gave credit to this news, since the last reliable news had been a telegram dated the 28th, or only two days previous, and that quoted 34 fm. Shirtings 12s. 6d. It did not therefore seem probable that, with an excitement in the Cotton market, an advance of 18d. would occur in two days. By advices however, at hand to-day per French mail there is no confirmation of the rumor, the latest telegrams received being up to May 5th, when 8$\frac{1}{2}$ fm. were quoted 12s. 6d. and 16 to 24 Yarn 10½d. With the exception of the demand that has existed for T. Cloths, Cotton Goods have been in little request, and the sales trifling, especially of Grey Shirtings, which up to within a few days only, had not met with any demand whatever. For T. Cloths there has been a fair demand throughout the period under review, especially for 7 lbs. weight, and latterly $2.66, and even as high as $2.70 has been offered for the finer qualities. Woollens, which for a very considerable time past have been almost entirely inactive, within the last few days have taken a start, the low prices selling having no doubt attracted the attention of the native traders. The consequence has been a fair business in almost all descriptions, and should the demand continue there is a chance for a still further advance on the already improved rates. The news of the evening of the Tea market at London will no doubt have its influence on this market very shortly, and a marked improvement in the native demand for Manufactured Goods, is confidently expected. The *Chusan* with a general cargo is the only arrival during the fortnight from London.

Grey Shirtings.—A very small and almost trifling business has been done in these goods, in fact but few if any inquiry having been made for them until within the last few days. Natives have been offering $2.60 for the best quality 8$\frac{1}{2}$ lbs., and finally came up to $2.65, but even at this figure there is no disposition on the part of holders to sell. A few pieces have been sold at this figure, and a few at $2.70 and these may be taken as a fair range of the market for average and best quality. This have been in rather more request, and as high as $4.60 in one instance was offered for a parcel of fine. This market is fully up to $2.55 to 2.60 for this weight, although the price yet paid was $2.50. Total transactions amount to 9,500 pieces, per 7,500 pieces 8 lbs. at $3.05 to 3.10, and 1,000 pieces 7 lbs. at $3.50.

Mohairs.—The depression noticed in the last report has continued without however, causing any alteration in prices. There has been little enquiry by the Chinese and the dropping sale of the markets in the North, prevents operations by the foreigners. In the face of the heavy losses, in which have been a resulting, holders show little inclination to meet buyers at the extremely low price now ruling, say $185 to 190 for first class long.

Persians.—Nothing doing.

Turkey.—A few skeins just arrived, but no sale reported yet.

Cotton.—Sales have again been on an extremely limited scale, which may be accounted for by the dearness with which importers are now holding the small remaining stocks of Bengal and Bombay staples, there being no China kinds on the market at present. Today's quotations are—Bengal $19 to 22 per picul; Bombay, $18 to 22.50 per picul; Shanghai is nominally at each $21 per picul; Pentam $20 to 22 per picul; Ningpo, $22 to 23 per picul. Total sales for the fortnight, 5,000 bales.

Metals, Provisions, &c.—Arrivals and sales have been of a very limited character, the former consisting of 1,000 chests of Malwa, and 150 chests of Bengal drug, while the exports and clearances may be estimated at about 1,100 chests of the former and 1,400 of the latter, the following quotations being in stock:—

	Malwa.	Patna.	Benares.
	1,000	600	600

Patna.—It was last reported that the market closed heavily at $830, which rate was maintained throughout the fortnight, the Chinese dealers showing no inclination to operate except to satisfy their immediate wants, and speculative transactions amongst foreigners being on a moderate scale. Yesterday morning however, on receipt of telegraphic news from Calcutta, quoting the French mail, an immediate advance took place and sales to some extent were effected at $840 to 850 for cash, and $850 to 855 fifth sales drug, at which brokers are very firm, anticipating a further rise.

Benares.—This drug also attracted but little attention, sales being made with great difficulty, owing to which rates slightly declined, but yesterday the market advanced with *Patna* and may be said to close at $800.

Malwa.—The depression noticed in the last report has continued without however, causing any alteration in prices. There has been little enquiry by the Chinese and the dropping sale of the markets in the North, prevents operations by the foreigners. In the face of the heavy losses, in which have been a resulting, holders show little inclination to meet buyers at the extremely low price now ruling, say $835 to 850 for first class drug.

*Persian

dealers, and for the supply of what may be termed the legitimate demand. The natives have been rather freely in the market, but appear to have had little faith in the firmness of holders or the advance that had taken place in prices, and accordingly as is their invariable custom, have been the most persistent of "Bears" offering with scarcely an exception, prices far below the level of the market or even a rate for the week. Notwithstanding this the market has continued very firm, and in all since purchases have been obliged to finally accede to the terms of sellers. On the arrival of the last English mail, the market was perhaps strengthened somewhat by a rumored private telegram, said to have been received at Singapore, and quoting 8¾ the Grey Shirtings on the 30th ultimo. There were few, however, who gave credit to this news, since the last reliable news had been a telegram dated the 26th, or only two days previous, and that quoted 8¼ the Shirtings 12s. 6d. It did not therefore seem probable that, with no excitement in the Cotton market, an advance of 18d. would occur in two days. By advices, however, at hand to-day per French mail, there is no confirmation of the rumor, the latest telegrams received being up to May 5th, when 8¼ lbs. were quoted 12s. 6d. and 40 to 24 Yarn 164d. With the exception of the demand that has existed for T-Cloths, Cotton Goods have been in little request, and the sales trifling, especially of Grey Shirtings, which up to within a few days only, had not met with any demand whatever. For T-Cloths there has been a fair demand throughout the period under review, especially for the weight, and latterly $2.60, and even as high as $2.70 has been offered for the finer qualities. Woollens, which for a very considerable time back have been almost entirely inactive, within the last few days have taken a start, the low prices ruling having no doubt attracted the attention of the native dealers. The consequence has been a fair business in almost all descriptions and should the demand continue there is a chance for a still further advance on the already improved rates. The news of the opening of the Suez Canal is looked for with no doubt have its influence on this market very shortly, and a marked improvement in the native demand for Manufactured Goods, is confidently expected. The Canton with a general cargo is the only arrival during the fortnight from London.

Grey Shirtings.—A very small and almost trifling business has been done in these goods; in fact but few if any inquiry having been made for them until within the last few days. Natives have been offering $3.60 for the low quality 8¼ lbs., and finally came up to $3.65, but even at this figure there is no disposition on the part of holders to sell. A few pieces have been sold at this figure, and a few at $3.70, and these may be taken as a fair range of the market for average and best quality. T lbs. have been in rather more request, and as high as $2.90 in one instance are offered for a parcel of fine. The market is fully up to $2.85 to $2.90 for this weight, although the price yet paid was $2.80. Total transactions amount to 6,500 pieces, say 7,500 pieces 8 lbs. at $3.65 to 3.70, and 1,000 pieces 7 lbs. at $2.80.

White Shirtings.—These goods have been taken in small dribbling lots throughout the fortnight, but the demand has been mostly for the finer descriptions. Sales include 3,400 pieces at $3.00 to 3.05.

T-Cloths.—There has been a fair demand for fine and fine T-Cloths, of the lower weight as high as $2.90 has been paid for the best makes, but as such quality is rather scarce just at present, the market may be quoted five to ten cents higher. Any further demand at these figures would no doubt bring some parcels at present in the hands of speculators into the market. The larger proportion of the sales mentioned below have been of 7 lbs., and for a fine quality of these, say 70 reed, $2.70 has been obtained, but this was an exceptional parcel. The range of the markets may be taken at $2.40 to 2 45. Some inferior goods have been placed at $2.25 to 2.30. Total sales amount to 20,000 pieces, say 6,000 pieces 6 lbs. at $1.85 to 2.00, 14,000 pieces 7 lbs. at $2.35 to 2.70, and 6,000 pieces 8 lbs. at $2.90 to 3.10.

Drills.—The only sale of these reported is a parcel of 2,500 pieces English, placed at $2.00 to $2.05.

Fancy Cottons.—These goods appear to have fallen quite out of notice, the only sales reported for the fortnight being 1,500 pieces assorted Chints at $2.35, and 850 pieces *Turkey Red* at $2.70.

Woollens.—These goods by their comparative cheapness seem at last to have attracted attention, and within a few days considerable sales have been effected. Prices have strengthened under the demand, and there is every prospect of their going still higher. Scarlet Spanish *Stripes* and *Long Ells* have perhaps been most in request. Sales reported amount to 4,850 pieces *Spanish Stripes*, say 3,120 pieces assorted and 1,730 pieces Scarlet, at 80 to 90 cents. 4,350 pieces *Orchids* at $16.50 to 18.00, 300 pieces *Lastings* at $15.50, 5,320 pieces *Long Ells*, say 3,960 pieces scarlet and 1,360 pieces assorted, at $8.20 to $9.00.

Cotton Yarn.—There has been very little change in the relative position of this article during the past fortnight, and prices remain much the same as noticed in the last issue of this *Report*. For 16-24 as high as $137 has been paid for the best qualities, while for the inferior kinds $485 and 1371 have been obtained. A considerable quantity of Bombay staple has been placed at prices ranging from $165 to $175. For the higher counts there has been little demand, but prices have advanced slightly in proportion with the highest prices of No. 16-24. Sales for the fortnight include 50 bales, say 765 bales No. 16-24 at $170 to $172, 117 bales No 28-32 at $1852 to 195, and 82 bales No. 36-42 at $197.

Metals.—Iron has been in fair request, and prices are perhaps a shade better, while Lead shows a slight decline. Sales include 3880 piculs *No 1 Red Iron* at $2.65 to $3.10, 3720 piculs *Bar Iron* at $3.30, 1480 piculs *Iron Wire* at $3.90, 1150 bdls *Steel* at $6.10 to $3.50, 250 boxes *Tin Plates* at $2.15 and 200 *Sheet Quicksilver* at $84.00 to 85.00

Gunpowder.—No further arrivals have taken place from Formosa, and the stock of this kind is very small. A small sale of Japan Camphine (60 piculs) is reported at $25 per picul.

Opium.—The market generally has been in a depressed state since the issue of the last report, the inquiry on the part of the Chinese continuing extremely limited for all descriptions, and prices consequently for transactions yesterday morning, when on the arrival of the French Mail telegrams were received from Calcutta of Gulfs announcing the result of the Fifth Sale, which had ruled much higher than was anticipated before, also having the same afterwards considerably advanced. This news created some excitement and the price of Bengal drug advanced about fifteen to twenty dollars. Holders are very firm and as a moderate supply only is expected by the Calcutta steamers, there is no probability of the market declining. Malwa has experienced no change. Imports have consisted of about 1,400 chests of Malwa, and 150 chests of Bengal drug, while the exports and clearances may be estimated at about 1,100 chests of the former and 1,400 of the latter, the following quantities being in stock :—

	Malwa.	Patna.	Benares.
	2400	1600	600

Rebate.—It was last reported that the market closed heavily at $693, which rate was maintained throughout the fortnight, the Chinese dealers showing no indication to operate except to satisfy their immediate wants, and speculative transactions amongst foreigners being on a moderate scale. Yesterday morning however, on receipt of telegraphic news from Calcutta by the French mail, an immediate advance took place and sales to some extent were effected at $610 to 615 for cash, and $600 to 605 after sales *three*, at which dealers are very firm, anticipating a further rise.

Bounce.—This drug also attracted but little attention, sales being made with great difficulty, owing to which, rates slightly declined, but yesterday the market closed with *Patna* and may be said to close at $930.

Malwa.—The depression noticed in the last report has continued without however, causing any alteration in prices. There has been little enquiry by the Chinese and the prevailing state of the markets in the North prevents operations by the foreigners. In the face of the heavy losses in which have been resulting, holding show little inclination to meet buyers at the present *low* prices now ruling, say $935 to 930 for first class drug.

Persian.—Nothing doing.

Turkey.—1 for choice just arrived, but no sale reported yet.

Cotton.—Sales have again been effected on an extremely limited scale, which may be accounted for by the firmness with which importers are now holding the small remaining stocks of Bengal and Bombay staples, there being no China kinds on the market at present. To-day's quotations are—Bengal $10 to 32 per picul; Bombay, $10 to 22.50 per picul; Shanghai is nominally as the 24th parcel; Tientsin 23 to 25 per picul; Ningpo, 22 to 24 per picul. Total sales for the fortnight, 5,000 bales.

Woods, Rattans.—*Rattans*—Streets $3.25 to 4.50 per picul. *Bamjus*, $4.25 per picul. *Pepper*, White, $10.00 per picul. Black, $7.40 per picul. *Sandal Wood Billets*, $14.00 per picul. South Sea, $3.00 per picul. *Sapan Wood*, Manila, $1.20 to 1.30 per picul. Siam, $1.50 to 2.00 per picul. *Mangrove Bark*, $1.20 per picul. Transactions include 2500 piculs. *Rattans*, 30 *White Pepper*, 750 *Betel Nut*, 250 *Sandalwood*, 1800 *Sapan-wood*, and 2250 *Mangrove Bark*.

Rice.—Prices show no improvement whatever and notwithstanding supplies, coming on are on the most moderate scale, the native dealers will only buy for immediate requirement and there is no prospect for even the slightest improvement. From last advices from Saigon prices had given way in that market, and Chinese will probably resume their shipments again for China, but the only difficulty in the way is the scarcity of tonnage, as by any supplies can not come to hand for a month. At all events sufficient quantities will arrive here to meet all local wants and prices can not therefore materially be expected to improve for some time. Transactions during the fortnight amount to 55,000 piculs, 32,000 piculs Siam and 10,000 piculs Saigon Rice, and the market closes weak at the following quotations :—

Bengal,	$1.45 to	1.65 per picul.
Siam, common,	1.25 to	1.40 "
" fair,	1.50 to	1.60 "
" white,	1.75 to	1.90 "
Saigon,	1.35 to	1.53 "
Manila kinds,	1.65 to	1.75 "
Rangoon,	1.35 to	1.50 "
Arracan,	1.35 to	1.40 "

Exchange.—Since the departure of the mail of the 13th instant sterling exchange has advanced 2 per cent and now remains firm at present closing quotations. Prior to the departure of the French Mail on the 25th instant a considerable amount of private paper was placed at 4s. 5d. to 4s. 5¼d. six months sight, and Bank Bills were offered at 4s. 4¾d., but without attracting any buyers. By the present outgoing mail, business has been done at 4s. 5¼d. for Bank Bills at six months and 4s. 5¾d. for credits. A telegram received by the last steamer from Foochow of the opening of the Tea market at that port has further tendered to strengthen rates to-day. Tenders were invited during the fortnight in the usual manner for H.M. Treasury Bills at 30 days, but offers when made although at favorable rates were declined. The estimated amount of business by the present opportunity amounts to about £370,000 say £150,000 Bank Bills and £310,000 Private Paper and Bra bills Rupees. The rate mentioned below for 60 days sight is that ruling for the next outgoing steamer to leave about the 22nd proximo.

Bullion.—Sales of Bar Silver have been effected at 11¼ premium, but there has been very little demand since the departure of the Calcutta steamer on the 21st instant. There is very little if any now left on the market. The present quotation for Sycee is merely nominal there being none at present available. There is some demand for clean Mexicans for Shanghai.

Shares.—The share market has been rather quiet during the past fortnight, but upon the whole a fair business has to be reported. Old Bank have steadily advanced and sales have to-day been made at 18 per cent premium, there are few sellers however at this figure and higher rates must generally be established. A very large business has been done in New Bank within the past few days, about twelve hundred having been settled at Chinnam and the market being now cleared of all offering at that rate. Union Dock have declined and a few sales were made at 13 discount. Some small parcels of steamers have been placed at 5 premium, but holders are extremely firm and higher prices are shortly expected. A large lot of Hotel changed hands at 25 discount, but there are still buyers in the market at this rate.

Coals.—Since the last report several vessels have arrived with Coal cargoes, showing a total quantity brought on of about Tons 3,153 say, English 1,650 tons, Australian 2,203 tons and Formosa 400 tons. Sales of Australian ex ship have taken place at $12, English and Welsh are unaltered.

FORTY YEARS' USE OF ITSELF MEDICINES
(Morison's Vegetable Universal Medicines):
By the public has proved their efficacy and virtues, and the truth of Mr. Morison's system as to the cure of diseases. Being composed only of vegetable matter or medicinal herbs, they are harmless to the most tender age or weakest frame, under every stage of suffering; the most pleasant in their operation; and the most certain in every case of any complaint. Bodies cleansing the great highway of the body—the bowels—they act copiously on the kidneys, the liver, and the skin. A sense of relief in the whole system is felt very shortly after they have been taken,—the blood flows more evenly, the head feels more tranquil, and sleep is given to those long deprived of it. The medicines consist of three sorts. No. 1 Morison's Pills; No. 2 Morison's Pill. In boxes at 7½d., 1s. 1½d., 2s. 9d., and 4s. 6d.; family packets, 11s. each; also the Vegetable Aperient Powders, 1s. 1½d. per box.
